### **CAUTION:**

The bathroom floor and wall must be finished prior to installation of the vanity base.

## **CARE & MAINTENANCE**

- To maintain the beauty of the furniture finish, avoid placing the vanity in direct sunlight.
- Avoid exposing the vanity to extreme temperatures by installing away from heat and air vents.
- Dust frequently with a clean, soft and dry cloth.
- Wipe away any water or liquid spills on the vanity base immediately with a clean, soft and dry cloth.

## **INSTALLATION** *Model 30178 shown in illustrations*

**1:** Removing old vanity (if applicable): 1) Turn off the water supply and drain out. 2) Disconnect the supply lines from the faucet. 3) Remove the old vanity top and vanity. **NOTE:** If the new vanity is not installed immediately, temporarily stuff a rag into the drain pipes.

**2:** Using a level, locate any uneven floor and/or wall areas where your vanity will be installed. Unevenness can cause your vanity to become misaligned resulting in twisting of the cabinet. Repair any uneven areas by reducing high spots or shimming low spots.

**3:** 1) Provide sufficient protection on the floor to protect the vanity from damage. 2) Tilt the vanity backwards and remove the shipping feet from the bottom of the vanity base using a pair of pliers (A - not included). Figure 1.

**4:** 1) Place the vanity in the desired position taking into account the location of your plumbing. 2) Ensure the vanity is level front to back and at both sides.

**5:** Secure the vanity to the wall by inserting (x 2) #8 x 3" screws (C - not included) through the back rail of the vanity. Figure 2. **NOTE:** It is recommended that the vanity be installed to at least one wall stud. In order to locate wall studs, you can use a stud finder or tap along the wall until you find a spot that sounds solid. If you are unable to locate wall studs, it is recommended that you use wall anchors (D - not included) to secure the vanity.

**6:** Attach the door knobs by using the 1-1/4" screws and attach the drawer knobs by using the 1-3/8" screws. Figure 3. **NOTE:** For 31-1/8"W and 37-1/4"W models, use the 3/4" screw for the top non-functional drawer.

**7:** Install the vanity top, faucet and drain (each not included) as per the instruction sheets provided with those items and ensure that there is no leakage.
